The semester is split into four main blocks.

**Block 1 (weeks 1-6)**
Complete Labs 1 & 2. This block is intentionally structured to allow students some time to ramp up on course material and logistics.

**Block 2 (weeks 7-9)**
Complete Lab 3 and final project preliminary design review (PDR).

**Block 3 (weeks 10-12)**
Complete Lab 4 and procure parts for final project.

**Block 4 (weeks 13-16)**
Complete final project demo and submit report.

Note: There may be some variability in the actual schedule each semester depending on holidays, breaks, and other current events.

Key: Height of box represents rough percentage of grade. Color density in box represents rough workload estimate.
